✦ Skills

Programming Languages

HTML5, CSS3, Typescript, Javascript, Python

Libraries & Frameworks

Next.js, React, Express, Node.js, Tailwind CSS, Bootstrap, jQuery, Flask

Design & Tools

Figma, Git/Github

Soft Skills

Creativity, Problem-solving, Communication, Adaptability, Flexibility, Teamwork, Time Management

🎓 Education

Little Heath School

A-level // 2003 - 2005

Business Studies (double), ICT

GCSE // 1998 - 2003

English, Maths, Science, Geography, Art: Graphic Design, Technology: Graphic Products, German, P.E, R.E,

💡 Interests

Music production, Traveling, Hiking, Exercising, Video games, Pixel art, 3D modelling, Crypto

🔗 Projects

Personal Website

I wanted somewhere to post my growing portfolio of web development projects and to show off my personality and design skills. This was my first venture into Next.js and Typescript after working with React for a while. I used Tailwind CSS for styling and plan to incorporate Framer Motion animations in the near future.

Cat-a-kana: Hiragana & Katakana Study

Cool name ay? Learning the Japanese syllabaries can be stressful, so I created something simple that people could use on the go to help them study. I love cats so I thought it would be fun if a cat judges your score and provides encouragement. Built using React and Tailwind CSS.

Organic Produce Website

I took a design from the internet and tried my best to recreate it using HTML, CSS and Javascript. I made some tweaks to improve the desktop UI, made the site responsive and added a functioning mobile menu. This project was mainly to test my HTML, CSS and problem solving skills.
